Be Slim - Stay Slim

£7.50

Are you hanging on to excess weight? There is no need to! You can let it go now, it's OK! Listen to this hypnotherapy recording and begin to notice the difference to your weight and fitness!

Listen to it for at least 30 days and you will lose the excess weight, be healthier and fitter!

How good does that feel?

Recorded by Anne, this is available in Conventional Hypnotherapy (CD and MP3) and in Brainwave Entrainment (CD and MP3)

The Brainwave Entrainment has semi subliminal affirmations and entrainment at the optimum level for changing habits, repeated throughout. Both of these are overpowered by a piano. You will be aware of my voice and the entrainment but it is not necessary to hear them clearly. All you have to do is lie back, relax and listen to the piano music!

Do not purchase this recording if you suffer from, or are being treated for a mental health condition.
